

Quality Policy

It is our main goal to identify customer needs and anticipate future market requirements.

We do this with adequate organisational, technical and financial means.

Only in that way can we be competitive and sustainably successful.

The corner stones of that policy are:

- The satisfaction and success of our customers is our prior quality measure.
- We strive to overachieve high quality levels with regards to our products and services and to continuously improve ourselves.
- By using safe organisational and technological processes, we can guarantee reliably high standards.
- Every employee is being responsible and quality-focused to achieve our company goals as well as the highest quality.

Our quality policy is obligatory for all employees at EOS GmbH.

The decisive factor for implementing it is the examples that our management gives.

Therefore, our management orientate its everyday actions towards that defined policy.

A handwritten signature in blue ink, appearing to read 'F. Mes'.

Florian Mes

Chief Performance Officer (CPO)
